## 👤 PERSONAL PROFILE

Adept of Lifelong Learning, always thirsty for new knowledge in a proactive and continuous way. Active participant in communities, expanding horizons through the exchange of experiences, ideas and best practices in software development. With experience in HTML, CSS and JavaScript, and knowledge in TypeScript, Node and React. Writing unit tests with Jest. Storing, managing and accessing data with MySQL, PostgreSQL and MongoDB. Using Git for version control. I want to develop ideas and make them real, with the possible ability to build usable and scalable applications that makes a difference in the world. Currently I'm seeking for a job opportunity as a software developer.
